

Hope project, Clay Cross

Ground clearance and erection of polytunnel

Offenders on unpaid work requirement have cleared a large area of ground and erected a large polytunnel for use by attendees at the day centre.

The Hope Project is charity supporting those with autism and severe learning difficulties. The polytunnel will be a big boon to the centre, enabling attendees to grow plants and seedlings and gain skills and satisfaction from an ongoing project.

An offender who worked on this project said:

“I really enjoyed the project. Plenty of opportunities to problem solve, team work and see a good result.”
